Facial Plastic surgery

Dear colleagues:

It is a real pleasure for me to invite you to attend the 7th Congress of the International Federation of Facial Plastic Surgery Societies (IFFPSS) to be held in Rome, Italy, on May 9-12, 2012.

The main objective of the International Federation of Facial Plastic Surgery Societies (IFFPSS) is to promote excellent quality of education, and the growth of facial plastic surgery around the world. Every two years an International Scientific meeting is conducted in conjunction with one of the country members of the IFFPSS. All previous meetings have been extraordinary learning opportunities and great social and cultural events. Rome will not be an exception to this trend.

The 7th IFFPSS Congress has covered the globe to provide you with the most extensive, comprehensive and inclusive educational event regarding techniques, trends and tastes in the world of facial plastic surgery. Rhinoplasty, endoscopic sinonasal/skull base surgery, periorbital rejuvenation, facelift, otoplasty, reconstruction, trauma, implants, injectables, fillers, lasers, fat grafting, non ablative resurfacing, and practice management will be covered by a world renowned faculty. There is truly something for everyone!

However, we are seeking new ideas from around the world. If you believe that you have a technique, an operative trick worth sharing with an international audience, please contact me at my email address mail@pietropalma.it.

Many of us do not have as much time as we would like to share with colleagues and friends. The 7th IFFPSS Congress offers you the opportunity to experience what will be a unique and exceptional academic and social event. Rome is a fantastic setting for this conference. The traveler fortunate enough to make Rome one of his destinations will become enamored by its beauty, arts, and traditions.

Please consider planning to join your colleagues and friends in Rome, Italy, on May 2012. I look forward to welcoming you in Rome!
